

Missing Link Internet

1-855-887-5465

admin@misslink.ca

Dear Central Alberta Resident

We are requesting a couple quick speed test to gain some data insight of the current data rates to customers in the Central Alberta zone and for upgrade planning.

Information we are requesting.

	www.speedtest.net	https://performance.cira.ca/
Measured download		
Measured Upload		
Date & Time of test		
Shared link to speed test if available		
Subscribed service upload / download		
Internet Service Provider		
IP address		
GPS coordinates of the speed test (latitude/longitude)		
Civic address		
Technology (e.g. fixed wireless, hub, DSL, Satellite)		

Here are a couple test sites to get information for the above, please choose a hosting site nearest you. Also, when doing a speed test hardwired to your network is preferred as well as the test being the only data being consumed during the test.

www.speedtest.net , <https://performance.cira.ca/>

To get gps co-ordinates www.google.ca/maps will open maps.

Find your location, use the satellite picture in bottom left to bring up a picture, left click to mark the location, a direction bar will show up on the bottom of the map, click on it and copy the latitude and longitude numbers.

With this information we will try to get the best internet we can to you. Please forward your completed form to admin@misslink.ca. Please share with your friends and neighbors!

Thanks
